

New Radiology Department

New Build unit within the Estate of the Lister Hospital

architects
project managers
cost consultants

JLA were appointed as Architects and Interior Designers to provide the design and bespoke solution for a department which offers diagnostic services, with its specific focus on patient care and service excellence.

JLA's design offered a non-clinical feel to the department, while still providing the required services, as was specifically requested under the brief. Our design was complimented by both staff and users.

Client: East and North Hertfordshire NHS Trust
Location: Lister Hospital, Stevenage, Hertfordshire
Value: £1.3 Million
Sector: Health
